

Statement from Darshan Kang,  
Official Opposition Critic for Infrastructure and Transportation  
Calgary Airport Tunnel  
January 11, 2011

Mayor Nenshi's recent revelation that the Calgary airport tunnel will cost much less than opponents claim is welcome news, and shows that it's worth continuing the fight to have the tunnel built.

As a Calgarian and the MLA for Calgary-McCall, I know that all residents of Calgary want this tunnel. Without the tunnel, the closure of Barlow Trail will make traffic congestion in the northeast almost unbearable, and the impacts on local businesses, the environment, and family life will be profound.

I support the mayor's efforts to get this tunnel built sooner rather than later. I will continue to raise the issue in my constituency and in the Alberta Legislature until the provincial government sees the light – the light at the end of the tunnel, which I believe is finally approaching.
